Step 2: Creating an Apple Account Without a Credit Card

St. John's Jesuit High School and Academy, 2011

In order for students to download educational apps, podcasts and content provided by the school, they will need a unique Apple user name and password. While some students may already have a personal account, we ask that all students create a new account with their St. John's email address. Further we ask that the account is created without credit-card information. The process for creating an account without a credit card is different than the process of creating a normal user account.

To create an Apple account from a home computer:

Step 1: Open up iTunes on your computer

Step 2: On the left-hand side of the screen, please click "iTunes store"

Step 3: Navigate to the App Store by click on App Store from the top navigation bar

Step 4: Important! Before proceeding to the next step, you must begin the process of downloading and selecting a free app. To find a free app, navigate to the Top Charts column on the right hand side of the App Store window. Please scroll down until you can see the list of free apps. Select the app of your choice by clicking on it once. It will then take you to a new screen devoted solely to that app. Under the image if the app is a button that reads "Free App." Please click here.

Step 5: In the pop-up window, click Create New Account
